Update on At-the-Market Offering

As previously disclosed in the Report on Form 6-K furnished by YYForce Inc. (the "Company"), on October 5, 2026, the Company entered into an At The Market Sales Agreement (the "Sales Agreement") with Spartan Capital Securities, LLC, serving as the sales agent (the "Sales Agent"), pursuant to which the Company may offer and sell, from time to time at its sole discretion through the Sales Agent, Class A ordinary shares, no par value, of the Company (the "Shares") having an aggregate offering price of up to $20 million (the "Offering"). From the commencement of the Offering through November 18, 2026, the Company sold an aggregate of 67,607,295 Shares (or approximately 1,352,146 Shares after giving effect to the Reverse Share Split described below) through the Sales Agent, for aggregate gross proceeds of approximately $6.07 million and aggregate net proceeds of approximately $5.81 million, after deducting commissions of approximately $0.26 million paid to the Sales Agent and other offering expenses.

Reverse Share Split

On November 19, 2026, the Company effected a reverse share split of the Company's Class A ordinary shares at a ratio of 1-for-50 (the "Reverse Share Split"), such that (a) every fifty (50) issued Class A ordinary shares, no par value, were combined into one (1) issued Class A ordinary share, no par value, and (b) no fractional shares were issued in connection with the Reverse Share Split. Shareholders who would otherwise have been entitled to a fraction of a Class A ordinary share had such fractional entitlement rounded up to one whole Class A ordinary share. The Reverse Share Split did not affect the rights, preferences or privileges of the Company's Class B ordinary shares.

As a result of the Reverse Share Split, the number of issued and outstanding Class A ordinary shares was reduced from approximately 75,444,029 shares to approximately 1,508,881 shares, subject to adjustment for the rounding up of fractional entitlements.

On November 17, 2026, the Company issued a press release announcing the Reverse Share Split. A copy of the press release is attached hereto as Exhibit 99.1.
