

YY Group Holding Limited's Revenue Hits US\$41M in 2024, Driven by Demand and Market Expansion

April 8, 2025

Singapore, April 08, 2025 (GLOBE NEWSWIRE) -- YY Group Holding Limited (NASDAQ: YYGH) ("YY Group", "YYGH", or the "Company"), a leading provider of innovative on-demand workforce solutions and integrated facility management (IFM), today reported promising financial results for the full year ended December 31, 2024, underscoring consistent growth and meeting milestones across key business segments.

Financial Highlights

In 2024, YY Group delivered robust performance across its business segments, reflecting continued execution of strategic priorities and growing demand across key markets.

- Revenue grew to US\$41.1 million, driven by the successful scale-up of on-demand workforce solutions across new and existing markets, continued regional expansion, and sustained growth in the Group's integrated facility management business as a stable core segment.
- Gross profit increased by approximately 44% year-on-year to US\$5.26 million, supported by greater business scale and disciplined execution, with gross margins remaining stable.
- In April 2024, the Group completed its initial public offering, raising gross proceeds of US\$4.5 million and strengthening its capital base for geographic expansion, technology development, and organizational growth.
- The company recorded an operating loss of US\$4.14 million, primarily due to a one-time, non-cash share-based compensation expense of US\$5.16 million. This expense, which relates to the 2023 Share Incentive Plan, reflects the issuance of equity awards to employees, executives, and advisors as part of the Company's IPO and aligns long-term interests with shareholders, without affecting cash flow.

Excluding this item, underlying operational performance remained stable and in line with management expectations. As of December 31, 2024, YY Group maintained a positive working capital position of US\$5.5 million, with cash balances of US\$836,907 and total assets of US\$15.4 million, up from US\$10.7 million a year earlier.
